🎵 Music

Design and build responsive websites using HTML, CSS, JavaScript, and WordPress (Elementor).

Develop and integrate dynamic backend features using PHP, MySQL, and REST APIs.

Collaborate with clients to create visually appealing, fast-loading, and mobile-friendly websites.

Manage end-to-end delivery: project planning, UI/UX design, development, and deployment.

Successfully delivered multiple projects in the restaurant, e-commerce, fintech, and business niches.

<u>Business or sector</u>: Information Technology & Services

IT Support/Web Assistant   *21 Jul 23 - 23 Jul 25*

Clear Essence California Spa & Wellness Resort | Lagos

Provided technical support for both hardware and software systems within the organization.

Assisted in maintaining and updating the company's website to ensure functionality and user-friendliness.

Supported staff with troubleshooting network connectivity, printers, and email systems.

Managed data backups, basic system maintenance, and web content uploads.

Collaborated with the marketing and admin teams to ensure consistent online presence.

Contributed to the improvement of digital processes, helping the resort enhance customer experience through technology.

Business or sector: Information Technology / Hospitality

Front-End Developer   *4 Apr 21 - 19 Sep 22*

CodeCraft Hub | Lagos

Collaborated with a team of developers to design and implement responsive web interfaces using HTML, CSS, JavaScript, and React.js.

Worked closely with UI/UX designers to transform wireframes and mockups into functional web pages.

Optimized website performance for speed, accessibility, and mobile responsiveness.

Assisted in integrating RESTful APIs and managing front-end data presentation.

Participated in code reviews, version control using Git/GitHub, and agile sprint planning sessions.

Contributed to several client and in-house projects, ensuring quality user experience and visual consistency across platforms.I'm

Business or sector: Technology / Software Development

IT Support/Web Assistant   *21 Jul 19 - 21 Oct 21*

TechConnect System | Enugu

Provided day-to-day technical support to ensure smooth operation of computer systems, networks, and online tools.

Assisted in managing and updating the company's website, ensuring optimized performance and accuracy of web content.

Supported staff with software installation, system configuration, and troubleshooting of IT-related issues.

Helped maintain data backups, antivirus systems, and user account management.

Collaborated with the development team to improve website usability and implement minor design or content changes.

Contributed to internal digital documentation and training materials for improved technical efficiency.

<u>Business or sector</u>: Information Technology / Technical Support
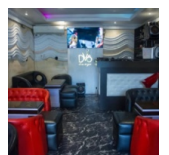

IT Support/Web Assistant   *23 Mar 17 - 19 Dec 18*

Dv8 Hotel | Lagos

Provided first-level IT support to hotel staff, troubleshooting hardware, software, and network issues to ensure uninterrupted operations.

Assisted in maintaining and updating the hotel's website and digital booking platforms.

Managed system backups, antivirus protection, and regular maintenance of office IT equipment.

Supported the front-desk and administrative teams with computer setup, POS systems, and email configurations.

Contributed to improving the hotel's digital presence by ensuring the website remained up-to-date and user-friendly.

Ensured prompt technical support during events and daily hotel activities, maintaining consistent connectivity and functionality.

<u>Business or sector</u>: Hospitality / Information Technology

🎓 Education and training

Bachelor of Science (B.Sc.) in Computer Science   *7 Feb 20 - 24 Nov 24*

National Open University of Nigeria (N.O.U.N) | Lagos

Developed a strong foundation in computational theory, programming languages (e.g., Python, Java, C++), software development methodologies, and problem solving.

AI Starter Kit Certificate (ALX Africa)   *21 May 25 - 24 Jun 25*

ALX Africa | Lagos

Gained foundational knowledge and hands-on experience with core AI principles, tools, and applications for enhanced productivity and problem solving.

**Professional Foundations**   *9 Jul 25 - 18 Sep 25*

Alx Africa | Lagos

Completed the Professional Foundations
Program under ALX Africa, a career-
development initiative focused on
leadership, personal growth, and
professional excellence.

Gained skills in effective communication,
problem-solving, time management,
digital collaboration, and goal setting.

Worked on real-world projects and
reflections through the GCGO (Get
Connected, Get Growing, and Own It)
framework — enhancing adaptability,
teamwork, and professional readiness for
global opportunities.

Portfolio

Personal skills

COMMUNICATION SKILLS

My ability to communicate effectively has been
developed through various roles where
collaboration with cross-functional teams was
essential. I have consistently engaged with
stakeholders to convey complex technical
information clearly, ensuring alignment on project
goals and progress.

ORGANISATIONAL / MANAGERIAL SKILLS

I have honed my organizational skills through
managing multiple projects simultaneously. By
utilizing project management tools and
methodologies, I efficiently prioritized tasks to meet

deadlines, contributing to successful project completions, such as leading the deployment of a key application feature.

JOB-RELATED SKILLS

Computer Science graduate with foundational skills in frontend development (HTML, CSS, JavaScript) and Python programming. Certified in AI fundamentals and currently training in data analytics using Excel, SQL, and Power BI. Familiar with Git/GitHub and passionate about solving problems with tech and data. Eager to grow and contribute to real-world projects.

DIGITAL SKILLS

Comfortable using digital tools for communication, development, and data analysis. Skilled in Office tools, beginner frontend development, and data analytics platforms

ⓘ Further information

Certifications
